

Leonardo Academy Sustainability Services for Walmart Suppliers

Leonardo Academy provides comprehensive sustainability services:

That help Walmart suppliers address the sustainability issues raised in:

- Initial Walmart sustainability survey questions and
- Follow up sustainability questions sent to suppliers in December 2009

Leonardo Academy: We are the Sustainability Experts® and we can help Walmart suppliers:

- Respond to Walmart's sustainability questions to each supplier
- Implement the sustainability actions that will support a lot of "yes" answers to the questions
- Get ahead of the curve by implementing sustainability actions beyond what Walmart is asking about now.

Leonardo Academy can help your company:

- **Energy Use:**
- Inventory energy use
- Identify and document past and current energy use reduction actions and programs
- Identify additional energy use reduction actions and programs
- Develop energy use reduction strategies and targets

-

Greenhouse Gas Emissions & Climate Change, Air Quality, and Hazardous Waste, and any possible waste or other environmental impacts. We will help you understand the risks and opportunities that exist at the level of your direct suppliers.
