

2013

- The process participants are completing the process of developing proposed resolutions to the public comments.

Next Steps:

- Compile and distribute all the proposed resolutions to the standard committee.
- The committee members will be invited to identify sets or slates of proposed resolutions that address all the public comments.
- The standard committee will vote to select the set or slates of proposed resolutions it will adopt.

2012

- August-December - The process participants are developing proposed resolutions to the public comments.

- July - The LEO-SCS-002 standard committee begins the process of reviewing the comments submitted during the public comment period.

- April - The LEO-SCS-002 draft standard is released for public comment by the American National Standards Institute (ANSI), with a comment period of April 6 to July 10, 2012.

- February - Standard Committee votes to approve the draft standard and Annex A for public comment.

- January - Updated versions of the main body of the standard, Annex A, and a Guide to Annex A were distributed to the committee for review.
