- International Finance Corporation

Now let us write the book for your building.

Leonardo Academy's consulting services can be tailored specifically to meet your needs and objectives. We've helped numerous buildings achieve LEED Certification.

Leonardo Academy supports the entire family of LEED rating systems. Our extensive knowledge of the LEED process provides clients with valuable advice and smooth project implementation. Whether it is implementing LEED on a single building or an entire portfolio of buildings, there is no project too large or too small; our goal is to help our clients succeed at LEED.

Our services include:

- LEED Project Management
- Visioning and Goal Setting for Projects
- Project Assessment and Strategic Planning
- Implementation of LEED Criteria
- Certification Application Preparation and Review
- Training (USGBC and AIA Education Provider)

Leonardo Academy's Insight

Our history demonstrates our commitment to and knowledge of LEED. Leonardo Academy has been deeply involved in the development of LEED since we joined the U.S. Green Building Council (USGBC) in 2009. We have been particularly involved in the development of the USGBC's LEED for Existing Buildings (LEED-EB) Rating System, which provides a framework for auditing and improving the sustainable performance of buildings.

Leonardo Academy has acted as a consultant to the USGBC in the following capacities:

- Managed the LEED-EB Rating System pilot program
- Acted as primary author of the LEED-EB v2.0 Reference Guide and Training Course
- Wrote the LEED-EB v2.0 Volume Certification Guidelines for the USGBC Pilot Program
- Performed all LEED-EB Volume certification application reviews to date
- Conducts LEED-EB certification application reviews (2002 present)

In addition to our work with the USGBC and GBCI, Leonardo Academy has:

- Conducted LEED-EB assessments on over 30 million sq. ft.
- Consulted on LEED-EB implementation and certification on over 20 million sq. ft.

Our core team members are LEED Accredited Professionals with O+M specialties. As a result, we know the LEED-EB program inside and out and can recommend the best LEED-EB implementation strategy for your building.

Now let us write the book for your building.

Leonardo Academy's team of experienced sustainability professionals can help you achieve your building sustainability objectives. Whether your organization is just exploring sustainability or has an established program in place, we can provide a practical path to sustainability.

Our extensive experience encompasses both single buildings and portfolios, as well as the full range of building lifecycles and occupancies, including new building design and construction, existing buildings operations and upgrades, and tenant spaces. We can address sustainability issues such as site management, commuting, water efficiency, energy efficiency and emissions reduction, procurement, waste management, and Indoor environmental quality.
